

REFLECTION FORMAT

Resource 6 of 6: Conglom

Name: _____ Date: _____ Type of Conglom: _____

Students and teachers are excited to begin their day at school. Every learner's name and story is noticed and celebrated. The morning class and school routine is now an opportunity for teachers and students to engage with each other through experiences that cater to their socio-emotional, physical and cognitive growth

You have just come back leading a conglom – a catalyst for your community's wellbeing. The reflection questions below are to see if you were able to see an alignment between your expectation and your delivery.

1. Did I meet the goal that I set out to achieve?
2. Two things that went well
3. Two things that did not go well.
4. What strategies will I use to make my next conglom more engaging? (Opportunity to discuss or collaborate for strategies with another teacher)
