IV. THE I CAN LESSON PLANS: <http://icanlessonplans.dfcworld.com/>

If you are looking for **inspiration** to teach beyond the 'text book', this is the perfect resource for you. The I CAN lesson plans offer you a menu of possibilities to teach '**real world projects**' in your classroom which help to build both **content and character**.

These global stories of change range from stopping bullying to reducing the weight of school bags, from caring for the elderly to preserving tribal culture! Each story is mapped to content standards as well as allows you to teach the 21st century skills. Feel free to contextualize these to your setting and do share your insights with us once you use them :-)
